

# AT-KS adapter grommets

based on KT large, for Keystone couplers

The grommet AT-KS is constructed on the basis of a large KT cable grommet. The polyamide body is moulded with elastomer.

The cut-out enables a snap-in assembly of all couplers based on the Keystone system. If required the keystone couplers can be disassembled with a screwdriver.

The insertion of AT-KS into an icotek cable entry frame enables the routing of cables with and without connectors in combination with the creation of interfaces for Keystone couplers within one cable entry system. Separate cut-outs for connectors are no longer necessary.

AT-KS provides ingress protection of up to IP54 (depending on the Keystone coupler type and manufacturer).

IP54

RoHS compliant

Made in Germany

## Specifications

|                       |                              |
|-----------------------|------------------------------|
| IP rating (EN 60529)  | IP54                         |
| Material              | Elastomer<br>Body: Polyamide |
| Flame class           | UL94-V0, self-extinguishing  |
| Operating temperature | -40 C° to 100 C°             |
| Properties            | silicone free, halogen free  |

## Advantages & benefits

- Connectors can be integrated directly into the cable entry frame
- Separate cut-outs for connectors are no longer necessary
- Space-saving solution
- Adapter grommet is suitable for more than 70 different Keystone jacks
- Snap-in assembly

## Product types & sizes
